

## SMART MANUFACTURING WORKFLOW EVENT

**March Weds 9th and Thus 10th – 10.00am to 4.00pm**

**CIS- tools Product Proving Centre, High Wycombe, HP11 1NY**

- Cam – **Live**
- Tooling
- Heat shrink tooling – **Live**
- Tool measurement – **Live**
- Workholding
- Coolant management – **Live**
- 5 Axis Machining – **Live**
- Metrology – **Live**
- Tool dispensing

**CLICK HERE TO REGISTER AND RECEIVE  
FREE ENTRY TO THIS IMPORTANT EVENT**

### **Live cam demonstrations from edgecam:**

Edgecam is a market leading computer aided manufacturing (CAM) system for NC part programming. With unparalleled ease of use and sophisticated toolpath generation, it's the only CAM system you'll need for milling, turning mill-turn machining & Wire EDM.

### **Tooling and fixturing solutions from CIS:**

CIS have been established 35 years, operating from four locations across the South Of England, supporting the Precision Engineering Industry with technical solutions, products and services.

"Operating with a large and experienced

Edgecam utilises your in house knowledge and experience to drive the CAM process with automation tools to suit different applications - allowing you to maintain your competitive edge.

sales team and delivery fleet. Working from three stock locations and a technical Product Proving Centre, housing over three million pounds of Engineering tooling products, Oils & Lubricants. Our very successful trading position has been achieved by providing the following business qualities to our most important asset that is you, our customer; Excellent technical support, stocks, delivery, and we are always prepared to invest in our customers."

**Live 5 axis Machining demonstrations from GROB come and discuss your work pieces with our engineers.**

Over the past 25 years GROB UK has been supporting the UK automotive sector with great success. With this wealth of experience we are now introduce the GROB universal machine range. We will be exhibiting our G350 Horizontal 5-axis machining centre which would be at home in any environment whether you make specialist components for the Medical, Tool and Mould, Aerospace or Automotive industries or indeed a precision subcontractor. Our range of 5-axis machining centres are so flexible they can be used in any industry.

**Live CMM inspection demonstrations from Mitutoyo.**

Mitutoyo is the world's leading manufacturer of precision measuring equipment, with a huge range of products from micrometers and calipers to vision measuring systems and 3D coordinate measuring machines. Mitutoyo offers a nationally recognised qualification in dimensional metrology backed by City & Guilds for companies wishing to upgrade staff skill levels or those wishing to further career development. Support services also include UKAS-certified calibration, sub-contract measurement, and bespoke system design and implementation.
